

AMR HOSSAM

Data Analyst

Egypt, Zagazig | 01025018511 | amrhossamamin@gmail.com | [linkedin.com/in/amr-hossam70](https://www.linkedin.com/in/amr-hossam70)

PROFESSIONAL SUMMARY

Data Analyst who turns messy numbers into clear, decision-ready stories. Skilled in Power BI, SQL, Python, and Excel — building interactive dashboards, DAX-driven KPI systems, and clean data models that drive real business outcomes. I don't just report numbers; I dig for root causes and design metrics that actually matter.

TECHNICAL SKILLS

Data Analysis & Business Intelligence

- Power BI — DAX, Data Modeling, Interactive Dashboards, Drill-through, Report Design
- Microsoft Excel — Pivot Tables, Power Query, VLOOKUP/XLOOKUP, Advanced Formulas, Charts
- SQL — Joins, Subqueries, Aggregations, Filtering, Data Extraction
- Python — Pandas, NumPy, Matplotlib (Data Analysis & Visualization)

Analytical & Business Skills

- Sales & Revenue Analysis | KPI Development | Performance Monitoring | Customer Segmentation
- Data Storytelling | Report Writing | Presentation Skills | Stakeholder Communication
- Problem Solving | Strategic Thinking | Attention to Detail

PROJECTS

Sales Analysis Dashboard | Power BI · DAX · Data Modeling | [View Project](#) | 2025

- Developed a 3-page interactive Power BI dashboard analyzing \$13.6M in total sales across 5 countries — covering Overview, Customer, and Product views with critical KPIs: Completion Rate (76%), Cancellation Rate (24%), and Average Order Value (\$4,047).
- Identified top revenue market (Saudi Arabia, \$4.67M) and top-performing products (Tie \$2.11M | Jeans \$2.05M) through advanced drill-through analysis and dynamic filtering by Country, Month, Item, Size & Color.
- Analyzed 1,000+ customers across delivery time, payment methods, and customer ratings — delivering actionable insights for targeted marketing and operational improvement.

Strategic Business Analysis & Problem-Solving Report | Business Analysis · Excel · Data from Kaggle | [View Project](#) | 2025

- Performed comprehensive business audit on Kaggle dataset, identifying 9 critical operational issues across revenue management, customer segmentation, and supply chain — categorized by urgency (Critical / High / Medium / Opportunity).
- Uncovered \$3.2M revenue at risk from 808 suspended orders and flagged 32% revenue concentration in a single market — proposed automated tracking systems and geographic expansion strategy into Egypt, Iraq & Syria.
- Designed 9 data-backed strategic solutions including AI-driven customer tiering, cross-selling programs, installment payment systems, and seasonal demand forecasting — projecting \$7.5M annual opportunity value within a 90-day implementation roadmap.

EDUCATION

Zagazig University — 2024 - 2028

Bachelor of Commerce and Accounting (English Section) | Zagazig, Egypt

CERTIFICATIONS & LEARNING

Self-Directed Learning — Data Analysis & Business Intelligence

- Completed comprehensive courses in Power BI, SQL, Excel, and Python from industry experts including Alex The Analyst, Data with Baraa, and Ahmed El-Assal.
- Hands-on project-based learning in real-world datasets (Kaggle), dashboard design, and business problem-solving methodologies.
